Subject to state and federal laws, the SBOE, the GaDOE and their agents, the SCSC and their agents and the State Auditor's office shall have the right to examine and copy all records, reports, documents, and files relating to any activity, program, or student of the Charter School. Any records maintained by a vendor for the services it performs on behalf of the Charter School that relate to school-level operations (such as personnel and financial records) shall be available for immediate access by the school as well as the State Board, Department, SCSC, and State Auditor in accordance with this section.

The Charter School shall contact the GaDOE Facilities Services Division regarding the following:
    - i. Site Code. The Charter School shall contact the Facilities Services Division to obtain site approval as soon as practicable. Failure to provide at least a six (6) months' notice to the Facilities Services Division prior to student occupation of the site or facility may delay the date that students can start occupying the site or facility. Once site approval has been granted, the Facilities Services Division will issue the Charter School a site code. Except as approved in writing by the SCSC Executive Director, the Charter School shall not commit to any certificate of lease or ownership, commence any construction, nor allow student occupation prior to receiving the site code.

- ii. Architectural Review. The Charter School shall submit and have approved by the Facilities Services Division all architectural plans for any facility that will house the Charter School during the charter term. The Charter School shall not commit to any certificate of lease or ownership, commence any construction, nor allow student occupation of the site or facility prior to architectural review.

24. Transportation. To the extent the Charter School offers a transportation program for its students, the Charter School shall ensure that the program complies with all applicable laws governing transportation of students.
25. Food Services. To the extent the Charter School offers a food service program, the Charter School shall ensure that the program complies with all applicable laws governing food service for students.
26. Projected Enrollment. For the purpose of funding students enrolled in the Charter School each year the Charter School offers a new grade level, the Charter School may be required to provide the SCSC a projected student enrollment count that includes prospective student names, Georgia Testing Identifier (GTID), if available, and any other information as requested by the SCSC. The Charter School shall provide this information by the deadline established by the SCSC and in the form and manner as requested by the SCSC. The information provided by the Charter School pursuant to this section may be verified by the SCSC through an onsite visit or by other means.
27. Data Collections. The Charter School assumes sole responsibility for accurate and timely collection and transmission of required data submissions to the SCSC and other government agencies, including but not limited to: the GaDOE, the Georgia Professional Standards Commission, and the United States Department of Education. The Charter School shall utilize a Student Information System that is compatible with the system utilized by the GaDOE. - b. School Records. The Petitioner shall retain ownership, including all incumbent responsibilities of an operational state charter school, of all records for a period of one year from the later of the date the charter contract expired, the date the charter contract was terminated, or the date the state charter school ceased operations. Incumbent responsibilities include, but are not limited to, transferring student records to public or private schools, schools operated by the Department of Juvenile Justice, and the local school system or schools from which the records are requested. - a. Renewal. The Charter may be renewed by agreement of the parties following the procedures set forth in the Charter Schools Act and accompanying SCSC Rule. The parties recognize that the renewal process will commence prior to the conclusion of the final year of the charter term and, as a result, the SCSC renewal decision will likely not include student achievement and school operational data from the final year of the charter term.
- b. Non-Renewal. Any grounds for termination stated in Section 25b above also may be grounds for non-renewal. In addition, the SCSC may elect not to renew the Charter if the petition for renewal does not comply with the Charter Schools Act and the rules, regulations, policies, and procedures promulgated in accordance with the Charter Schools Act or if the SCSC deems that the Charter School has not sufficiently increased student achievement or is no longer in the public interest notwithstanding the Charter School's performance on the SCSC Comprehensive Performance Framework.
- c. Probationary Term. In the event the SCSC determines that the Charter School has failed to comply with any provision of this Charter, the SCSC may elect to grant a renewal for a probationary term, within which term the Charter School must come into compliance satisfactory to the SCSC.

42. Non-Waiver. Except as specifically provided for in a written waiver signed by the parties, failure by either party at any time to require performance or claim a breach of this Charter does not constitute a waiver or affect the party's right to require performance or claim a breach of this Charter.

### OVERVIEW:

# ***Comprehensive Performance Framework for State Charter Schools***

---

## PURPOSE

---

Quality charter school authorizers establish standards for school performance that are clear, quantifiable, rigorous, and attainable. The SCSC Performance Framework includes academic, financial, and organizational performance measures that establish expectations, guide practice, assess progress, and inform decision making over the course of the charter term and at renewal or revocation.

The three areas of performance covered by the frameworks—academic achievement, financial management, and organizational compliance— correspond directly with the three components of a strong charter school application and are the three areas on which a charter school’s performance should be evaluated. In each of the three areas, the framework asks a fundamental question:

- Academic Performance: Is the charter school offering students a better educational opportunity than they would otherwise receive at the traditional local school?
- Financial Performance: Is the charter school fiscally viable and responsible?
- Organizational Performance: Is the organization effective, compliant, and well-run?

Exhibit A

SECTION I: ACADEMIC PERFORMANCE

---

FUNDAMENTAL QUESTION

---

Is the charter school offering students a better educational opportunity than they would otherwise receive at the traditional local school?

---

INDICATORS

---

To answer the above question, the SCSC uses performance metrics derived from:

- the [College and Career Readiness Performance Index \(CCRPI\)](#), the statewide accountability tool. The CCRPI includes a content mastery component that assesses student proficiency and a progress component that uses student growth percentiles to assess student growth, among other measures. And from,
- The [Value-Added Model](#), a statistical predictive measure that considers a student’s individual characteristics and the school’s student body makeup.

---

MEETING GOALS

---

A state charter school can meet annual SCSC academic accountability standards by outperforming its comparison zone, the school/districts from which its students are zoned to attend, in terms of student achievement or growth as measured by CCRPI Content Mastery, CCRPI Progress, CCRPI Grade Band Score, or Value-Added Model impact scores.

A state charter school only needs to outperform one of the comparison zones [schools or district(s)] on Indicator 1, Grade Band Measures, or one of the measures included in Indicator 2, Schoolwide Measures, not both, in order to receive an overall Meets designation for a given year.

---

SECTION I: OVERALL DETERMINATION OF COMPLIANCE

---

As measured by the indicators and measures set forth in this section, is the school meeting academic performance standards?

SCORING CATEGORIES:

Exceeds Standards	Outperforms its comparison zone by 10 or points
Meets Standards	Outperforms its comparison zone
Approaches Standards	Performs as well as its comparison zone
Does Not Meet Standards	Performs below its comparison zone

**INDICATOR PERFORMANCE**

---

**SECTION I, INDICATOR 1: GRADE BAND MEASURES**

All state charter schools must demonstrate their ability to positively impact students' academic performance either through high levels of achievement or growth across all grade bands served.

<u>Measure</u>	<u>Designation Earned</u>	<u>Explanation</u>
CCRPI Content Mastery	i.e. MEETS	<p><i>Exceeds Standard:</i> The state charter school's score is 10 or more points higher than the comparison zone [the schools/districts from which its students are zoned to attend] on any one or combination of the academic measures in all grade bands served.</p>
CCRPI Progress		<p><i>Meets Standard:</i> The state charter school's score is 1 to 9 points higher than the comparison zone [the schools/districts from which its students are zoned to attend] on any one or combination of the academic measures in all grade bands served.</p>
CCRPI Grade Band		<p><i>Approaches Standard:</i> The state charter school' score is no more than 2 points below the comparison zone [the schools/districts from which its students are zoned to attend] on any one or combination of the academic measures in all grade bands served.</p>
Value-Added Model		<p><i>Does Not Meet Standard:</i> The state charter school's score is more than 2 points below the comparison zone [the schools/districts from which its students are zoned to attend] on any one or combination of academic measures in all grade bands served.</p>

## Exhibit A

### SECTION I, INDICATOR 2: SCHOOLWIDE MEASURES

All state charter schools must demonstrate their ability to positively impact students' academic performance either through high levels of achievement or growth across all students served.

## Exhibit A

### CALCULATION METHODS

Score	Calculation Explained																								
District Comparison Zone Score	<p>This score is calculated based on the proportion of students the state charter school enrolls from each district served. If a school serves a single district, it is compared to that district's score because 100% of students enrolled in the state charter school are zoned to attend that district. However, if a state charter school serves multiple districts or has a statewide attendance zone, a weighted comparison score is generated based on the proportion of students the state charter school enrolls from each district. For instance, if a state charter school enrolls 80% of its students from District A and 20% from District B, then the comparison score will comprise 80% of District A's CCRPI score and 20% of District B's CCRPI score. The SCSC uses the GaDOE Data Collections Student Record report to determine district enrollment proportions.</p>																								
School Comparison Zone Score	<p>This score is calculated based on the proportion of students the state charter school enrolls from each local school attendance zone served. The student-level address element in the GaDOE Data Collections Student Record report is used to determine which school each student enrolled in a state charter school is zoned to attend [the school the student would attend if they were not enrolled in the charter school]. The SCSC weights those schools' CCRPI scores based on the proportion of students enrolled. This is the same process that is used to generate the District Comparison Zone Scores, just at the more granular, school level.</p>																								
Whole School Score	<p>This score is calculated based on the proportion of students the state charter school enrolls in each grade band served. For instance, if a state charter school serves grades K-8 and enrolls 60% of its students in the elementary grade band and 40% of its students in the middle-grade band, then the Whole School Score is 60% of the school's elementary school score plus 40% of the school's middle school score. The state charter school's score is then compared to the same weighting of the District Comparison Zone Score and the School Comparison Zone Score. For state charter schools that serve across grade bands, this measure seeks to determine whether, as a whole, the school is providing a better opportunity for most students. The SCSC uses the GaDOE Data Collections FTE-3 report to determine district enrollment proportions.</p>																								
CCPRI Grade Band Score	<p>This score is calculated using the CCRPI Scoring by Component data file published by GaDOE annually and by following the grade band score calculation methodology as described in the 2019 CCRPI Calculation Guide<sup>1</sup>. Specifically, each CCRPI Component is weighted and combined into an overall score by grade band. The table below displays the weights by component and grade band.</p> <table border="1" style="margin-left: auto; margin-right: auto;"> <thead> <tr> <th></th> <th style="text-align: center;">Elementary</th> <th style="text-align: center;">Middle</th> <th style="text-align: center;">High</th> </tr> </thead> <tbody> <tr> <td style="text-align: left;">Content Mastery</td> <td style="text-align: center;">30%</td> <td style="text-align: center;">30%</td> <td style="text-align: center;">30%</td> </tr> <tr> <td style="text-align: left;">Progress</td> <td style="text-align: center;">35%</td> <td style="text-align: center;">35%</td> <td style="text-align: center;">30%</td> </tr> <tr> <td style="text-align: left;">Closing Gaps</td> <td style="text-align: center;">15%</td> <td style="text-align: center;">15%</td> <td style="text-align: center;">10%</td> </tr> <tr> <td style="text-align: left;">Readiness</td> <td style="text-align: center;">20%</td> <td style="text-align: center;">20%</td> <td style="text-align: center;">15%</td> </tr> <tr> <td style="text-align: left;">Graduation Rate</td> <td style="text-align: center;">--</td> <td style="text-align: center;">--</td> <td style="text-align: center;">15%</td> </tr> </tbody> </table>		Elementary	Middle	High	Content Mastery	30%	30%	30%	Progress	35%	35%	30%	Closing Gaps	15%	15%	10%	Readiness	20%	20%	15%	Graduation Rate	--	--	15%

SECTION II: FINANCIAL PERFORMANCE

---

FUNDAMENTAL QUESTION

---

Is the charter school fiscally viable and responsible?

---

INDICATORS

---

To answer whether the school is fiscally viable, the SCSC assesses a state charter school’s performance on both near-term financial health and long-term financial sustainability measures using data derived from each school’s independent financial audit. Near-term measures are designed to depict the school’s financial position and viability in the upcoming year. Sustainability measures are used to determine a charter school’s ability to cover long-term obligations and control costs effectively over time.

To answer whether the school is fiscally responsible, the SCSC assesses a state charter school’s performance on both fiscal management and oversight measures using data derived from annual monitoring practices and SCSC and GaDOE enrollment data collections. Fiscal management and oversight measures are used to evaluate a charter school’s ability to comply with relevant rules and laws, manage funds responsibly, and provide a more qualitative look at performance irrespective of near-term and long-term calculations.

---

MEETING GOALS

---

A state charter school can satisfy annual financial accountability requirements by earning at least 80 points across the near-term and sustainability measures and at least 80 points across the oversight and management measures. In other words, a state charter school must earn a “Meets Standards” designation on both Indicator 1 and Indicator 2 in order to receive an overall “Meets Financial Standards” designation for a given year. Indicators 1 and 2 are calculated separately, and both add up to 100 points independently.

If a school earns below 70 points (a Does Not Meet rating) on both Indicator 1 and Indicator 2, it will be designated as “Does Not Meet” financial standards. Any other combination of points/ratings will result in an “Approaches Standards” designation in the financial section of the CPF for the given year.

---

SECTION II: DETERMINATION OF COMPLIANCE

---

As measured by the indicators and measures set forth in this section, is the school meeting financial performance standards?

SCORING CATEGORIES:

Meets Standards	80-100 points
Approaches Standards	70-79 points
Does Not Meet Standards	0-69 points

| Corrective Action Plan  
2024

## Overview

SLAM Atlanta, Inc. is a non-profit organization with a volunteer governing board. This governing board is the policy-making body responsible for the affairs and management of the organization. The governing board is responsible for the academic, operational, financial oversight of the school.

As part of the commitment to continuous improvement annually, the school has established a corrective action plan (CAP) which includes goals, action steps for improvement, parties responsible for implementation and support. As a working document, the plan is monitored and updated quarterly pending completion of actions steps therein. The stakeholders involved in implementing and supporting the Corrective Plan are as follows:

### Governing Board of Directors

The Board of Directors is comprised of volunteer community members from diverse backgrounds who contribute their expertise in areas of business, education, finance to effectively establish policies consistent with the school's mission. They ensure that the school's educational program and operations follow all statutory and regulatory requirements. The board determines the priorities set in the CAP.

SLAM Atlanta is currently in the process of establishing a full governing board with the capacity to address academic, financial, and operational gaps. By April 1, 2024, the board will vote in and onboard two new governing board members. Another prospective board member is in the process of fulfilling prerequisites to join the board. These prerequisites include expressing interest, submitting credentials, attending a board meeting, and visiting the school.

To ensure newest board members are well-prepared, they will undergo governance training before the start of the new school year. Recognizing the importance of diverse expertise, the board has circulated a letter expressing the need to attract at least one additional board member with a financial background. Currently, new board members bring valuable experience in education, including charter school experience, as well as sales and marketing. These efforts underscore SLAM's commitment to establishing a robust governing board capable of effectively addressing the multifaceted needs of SLAM Atlanta.

## **School-Site Leadership**

The school leader, hired by the board, is responsible for all aspects of day-to-day administration of their school within the scope of the board's operating policy and in compliance with all state and federal guidelines. The leader makes all school-based decisions, establishing and implementing procedures for the day-to-day operations of the school including procedures for curriculum and instruction, classroom management, discipline, faculty and staff evaluation, data analysis, testing, support services, parental communication, professional development, discipline, community outreach, oversight of facilities and internal financial controls, etc. The principal reports to the board on the school's operations and finances as well as to the SLAM Foundation on the academic program.

## **Teacher Recruitment**

SLAM Academy of Atlanta has enacted a comprehensive set of strategies designed to enhance the recruitment, training, and retention of highly qualified teaching professionals. In a proactive move to streamline the staffing process, the board has instituted a policy requiring current educators to submit their intentions regarding contract renewal by the initial week of April. This approach affords the school a detailed perspective on staffing needs for the forthcoming academic year well ahead of time, thereby facilitating a smooth transition and continuous education delivery.

To further this initiative, recruitment efforts commence early in the year, with job postings being disseminated across a variety of reputable hiring platforms starting in the second week of March. This early engagement in the recruitment process enables the school leader to begin screening and interviewing prospective candidates promptly, ensuring that the schools are positioned to secure top talent.

A noteworthy enhancement to the school's recruitment strategy is a collaboration with Teach for America, aimed at attracting exemplary 2024 Corps members. These candidates, having met or being in the process of meeting the requirements for the Georgia Provisional Certificate through successful GACE assessments, bring a level of preparedness and quality that aligns with SLAM's standards of excellence. SLAM had participated in the initial hiring round to be positioned to extend employment offers to select candidates as early as the first week of April. This further exemplifies SLAM Atlanta's commitment to securing the best educators for its students.

Central to the school mission is a commitment to professional development. SLAM hosts monthly training sessions for faculty, fostering an environment of continuous learning and growth. In collaboration with the Teach for America staff, SLAM will ensure that Corps members receive the necessary support and resources to thrive in their roles. This symbiosis not only enhances the educational experience for educators but ultimately benefits the student body.

Guided by the insights provided by the Comprehensive School Improvement team, SLAM Atlanta remains diligent in efforts to incorporate best practices into school operations. This feedback mechanism is pivotal in meeting the objectives outlined in our CAP and District Plan of Support, ensuring that strategies align with our overarching goal of educational excellence.

Through these concerted and strategic efforts, SLAM Atlanta aspires to attract, develop, and retain the finest educators, thereby fostering an environment conducive to the academic success and well-being of all students.
